* Projections not calculated due to variances in number of deaths by year producing unstable rates.

Source: Projected deaths were derived based on cancer mortality rates, which were calculated using the following database: Mortality – All COD, Public-Use with State, Total United States (1969-2008), National Cancer Institute, DCCPS, Surveillance Research Program, Cancer Statistics Branch, released September 2011. Underlying mortality data provided by NCHS <www.cdc.gov/nchs>.

N.B. Projections for bones and joints, testis, and Hodgkin's disease are not available as NCHS data are suppressed if based on less than 10 deaths.
