In order to streamline the grant application process, the Illinois Department of Public Health, Division of Oral Health, has developed several tools to assist with grant submission and program planning.

A complete application will include the Illinois Department of Public Health Grant Application form.

Applications must be received by the close of business (5 p.m.) on May 31, 2012. Send two originals to the Illinois Department of Public Health, Office of Health Promotion, Division of Oral Health, 535 West Jefferson Street, Springfield, Illinois 62761; or you may submit your grant application electronically to <Stacey.Ballweg@illinois.gov>. Late grant applications will not be reviewed.

GUIDANCE PACKET INCLUDES:

- Oral Health Needs Assessment and Planning Grant Application Guidance
- Fact sheet and chart
- Section 7 template

Section 7. GRANT SCOPE OF WORK

ORAL HEALTH NEEDS ASSESSMENT AND PLANNING
Grant Application Guidance

(Fiscal Year 2013 — July 1, 2012 through June 30, 2013)

A. Program Description

The Oral Health Needs Assessment and Planning (OHNAP) Program assists communities to determine oral health status and plan comprehensive oral health programs designed to meet community needs. The Division of Oral Health will provide your agency with training, technical assistance and copies of the Association of State and Territorial Dental Directors (ASTDD) “Seven-Step Model” and the Division of Oral Health Supplemental Guidance. These tools facilitate a systematic data collection and analysis process that translates into an action plan. The process is completed with development of appropriate community intervention strategies and implementation of the action plan. For review for this application, an electronic copy of the Model can be found on the ASTDD Website at <www.astdd.org> and an electronic copy of the Guidance can be obtained by contacting Stacey Ballweg at the Division of Oral Health at <Stacey.Ballweg@illinois.gov>.

By the end of the program year, the grantee will establish a comprehensive community-based oral health plan consisting of measurable oral health objectives and intervention strategies.

B. Program Requirements

The applicant must:

- Form a community planning group.
- Review oral health data.
- Translate oral health data into measurable oral health objectives and formulate intervention strategies.
- Submit to the Division of Oral Health, all appropriate worksheets found in the Seven Step Manual/Supplemental Guidance, community objectives, and oral health plan.

C. Payment Methodology

The Department will pay the Grantee $1,000 upon completion of the project and Department acceptance of the Oral Health Needs Assessment and Plan using the ASTDD “Seven-Step Model” and Division of Oral Health Supplemental Guidance.

Payment to the grantee shall be made on a fee-for-service basis. The grantee shall submit to the Division of Oral Health, by the end of the program year, all appropriate worksheets from the model, community objectives and oral health plan and a Reimbursement Certification Form. After Department review and approval, a state of Illinois Invoice Voucher shall be prepared and processed through the Office of the State Comptroller for payment to the grantee.
D. Application

Illinois Department of Public Health Application for Public Health Grant (attached).

E. Source of funds

Maternal and Child Health Services Block Grant

F. Contact:

For additional information, please contact Ms. Julie Ann Janssen at 217.785.4899 or e-mail at <Julie.Janssen@illinois.gov>.

Applications must be received by the close of business (5:00 p.m.) on May 31, 2012. Please send two originals to:

Illinois Department of Public Health
Division of Oral Health
535 West Jefferson Street
Springfield, Illinois 62761

or you may submit your grant application electronically to <Stacey.Ballweg@illinois.gov>. Grant applications submitted electronically require an electronic signature on the application.
Why Oral Health Needs Assessment & Planning?

Your oral health program will best meet the needs of your community when it is tailored to match current needs and to solve current health problems. Resources are best used when targeted to populations currently at risk, rather than toward established programs or localities with a past incidence or prevalence of disease.

The model relies on a systematic data collection and analysis process that is translatable to an action plan. Oral health needs assessment in your community will provide valuable data which can help determine, establish and adapt services and programs to best serve community needs.

About the Seven-Step Model & Supplemental Guide

If carried out properly, the model and guide will help educate your community about the importance of oral health and build community capacity to address the identified oral health needs.

The Seven-Step Model and Supplemental Guide are assessment and planning tools tailored specifically to determine oral health needs and develop a comprehensive community-based oral health plan. When used effectively, the process provides integrated information about health status, the existing health system and health resources.

The model and guide incorporate risk assessment methods to assist in identifying individuals or groups who are at risk for poor oral health.

Just as you do not need to read the entire cookbook to prepare a meal, you don't have to use the entire manual to conduct a community oral health needs assessment. Review the set of options and select those tabbed sections that most effectively match your program's capabilities and oral health goals.

Step-by-Step with the Seven-Step Model & Supplemental Guide

The model & guide provide a step-by-step, logical approach to help you conduct an oral health needs assessment and develop an oral health plan. It is based on a large-scale consensus-building process involving a number of diverse key stakeholders. Involving a community planning group is critical to the success of your needs assessment and plan.

At the heart of this model is a core set of information that all oral health programs should include as well as optional information items.

Section 7. Grant Scope of Work - TEMPLATE  
Oral Health Needs Assessment and Planning Grant

Detailed Description
The Oral Health Needs Assessment and Planning Program assists communities to determine oral health status and plan comprehensive oral health programs designed to meet community needs. The Division of Oral Health provides agencies with training, technical assistance and copies of the Association of State and Territorial Dental Directors (ASTDD) “Seven-Step Model” and the Division of Oral Health Supplemental Guidance. These tools facilitate a systematic data collection and analysis process that translates into an action plan. The process is completed with development of appropriate community intervention strategies and implementation of the action plan.

By the end of the program year, the grantee will establish a comprehensive community-based oral health plan consisting of measurable oral health objectives and intervention strategies.

Program Requirements
The applicant must:
- Form a community planning group.
- Review oral health data.
- Translate oral health data into measurable oral health objectives and formulate intervention strategies.
- Submit to the Division of Oral Health, all appropriate worksheets found in the Seven Step Manual/Supplemental Guidance, community objectives, and oral health plan.

Expected Outcomes and how outcomes will be measured (Oral Health Needs Assessment and Planning Grant)
Grantee will engage community partners and form a community planning group.
- Division of Oral Health staff reviews all documents submitted by the grantee.

Grantee will develop a community-specific comprehensive oral health improvement plan.
- Division of Oral Health staff reviews all documents submitted by the grantee.

List of Goals
To create a comprehensive community-specific oral health plan.
