Note: The Summer Food grants are reimbursed on a fee-for-service basis at a rate of \$100 for initial inspections, \$50 for required follow-up inspections, and \$25 for visits of non-operating sites. An itemized budget is not necessary.

Section 7. GRANT SCOPE OF WORK

Detailed description/information about the proposed project and expected outcome.

The objective of this grant/project is to provide inspections for Summer Food sites throughout the Local Health Department's jurisdiction and therefore, decrease the diseases and prolonged health issues that may occur with users of these type establishments.

Description of how outcomes will be measured.

Local Health Departments submit all inspection reports and then IDPH logs them. Complaints and reports of injuries are also gathered and the information reviewed and maintained at the state and local level.

List of goals to be accomplished during the grant period.

The <u>(insert name of local health department)</u> will provide the following services and agrees to act in compliance with all applicable state and federal statutes and administrative rules.

- A. During a period of food preparation, conduct inspections of food service management company food preparation facilities and serving sites designated by the Department.
- B. If food transportation to a satellite location is a part of the Summer Food Program, consider the following points:
 - a. Vehicle or holding equipment shall maintain required product temperatures throughout the entire delivery schedule. The driver shall maintain a temperature log recording product temperature of potentially hazardous food and delivery time at each site. This log shall include the temperature of foods at delivery sites and signature(s) of person(s) receiving the foods.
 - b. The transport vehicle shall be clean and maintained in good repair.
 - c. The transport vehicle should deliver food as near to serving time as possible.
- C. Before making an inspection, make arrangements to have a schedule of the route of delivery with the approximate times of delivery. Time the inspection to coincide with the delivery or serving of the food. When conducting an inspection, document potentially hazardous food temperatures on the inspection report.
 - a. Include the time of delivery if the food was prepared off-site and the time that temperatures were taken.
 - b. Check and record both hot and cold food temperatures.
 - c. Record both "proper" and "improper" food temperatures.
 - d. Check refrigerator and milk cooler temperatures and indicate whether thermometers are present.
 - e. Adequate hot or cold holding equipment must be available if food is delivered before service.
 - f. Question food handlers about procedures for handling dishes and utensils that are to be reused, storage and service of foods, and procedures for handling leftovers.
 - g. Food handlers shall have a metal-stemmed thermometer available to check product temperatures. Food handlers shall also have a log to record the time the food arrived, the type and the temperature of the foods, and the name of the person that received the food.

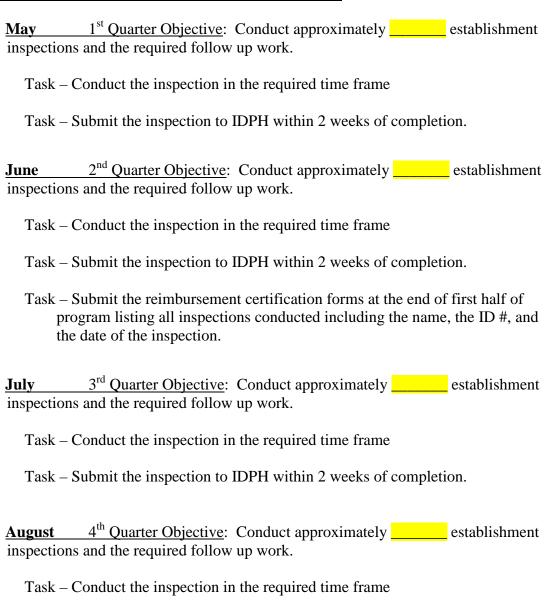

Revised: October 5, 2010 Page 5 of 8

- D. Develop a policy for handling potentially hazardous food that has been obviously mishandled and found in a critical temperature zone during the inspection. Inform the Summer Food Program sites of this policy.
- E Adequate hand washing and toilet facilities shall be available for the food handlers and staff.
- F. Toxic chemicals shall be labeled and safely stored away from food, utensils, and single-service items. If possible, provide the feeding site with a "Wash Your Hands" sign.
- G. Outer openings to building shall be protected to prevent insects, rodents, and other pests from entering.
- H. Dishes and utensils to be reused shall be subjected to required cleaning and sanitizing.
- I. Storage, preparation, and service areas shall be clean and cleanable. Dining tables and work areas shall be wiped down with a sanitizing solution.
- J. Food, utensils, and single-service items shall be safely stored.
- K. Adequate garbage storage facilities must be available (sufficient number and size, covered, and clean).
- L. If a central commissary prepares food for satellite distribution, this facility should have been previously inspected by the Grantee. Request a copy of the most recent inspection performed.
- M. Each Summer Food Program site shall keep an updated temperature log on foods as they are delivered and as they are served.
- N. Inspect each site once during its respective operating dates (plus any reinspection needed to correct serious violations) using the Retail Food Sanitary Inspection Report form, completing all required information and comments including the numerical score and site number as designated by the Illinois State Board of Education. At the top of all inspection reports write the words Summer Food Program
- O. Sample foods that are suspected of being mishandled or adulterated shall be submitted to the Illinois Department of Public Health Laboratory in the Grantees area through the Illinois Department of Public Health Regional Office. Tests which may be requested include aerobic plate count, coliforms, salmonella and/or extraneous material.
- P. Send <u>2 legible</u> copies of all reports within two weeks of inspection to the attention of Melissa Estes, Division of Food, Drugs and Dairies, 525 W. Jefferson St., Springfield, IL 62761.
- Q. Send <u>2 legible</u> copies of reports on all sites visited but found not operating as scheduled and mark report "Not operating as scheduled."

R. Mark report "No violations found during this inspection" for sites where no violations are found. No other comments on site performance shall be written on the inspection form.

Proposed Timeline: May 1, 2013 through August 31, 2013;

By quarter, complete the objectives and tasks shown below:

Revised: October 5, 2010 Page 7 of 8

Task – Submit the reimbursement certification forms at the end of second half of program listing all inspections conducted including the name, the ID #, and

Task – Submit the inspection to IDPH within 2 weeks of completion.

the date of the inspection.
