A Hearing Instrument

can be a good
sound investment

**if...you
purchase wisely**

Remember these important facts...

- **MEDICAL CLEARANCE** from a licensed physician should be obtained before buying a hearing instrument. This identifies medically treatable conditions that affect your hearing.
- Obtain a **HEARING EVALUATION** from a licensed dispenser or clinical audiologist before purchasing a hearing instrument.
- Be sure the hearing instrument dispenser is **LICENSED** by the Illinois Department of Public Health.
- **A 30-BUSINESS-DAY TRIAL PERIOD IS REQUIRED BY LAW.** Make sure this and the cost of the trial period are stated in the contract.
- Ask about the **MANUFACTURER'S WARRANTY** or **SERVICE CONTRACT.** Find out what services each provides, what costs are involved and the time period they cover.
- Illinois law requires a dispenser who sells hearing instruments in a consumer's home to give **NOTICE OF CANCELLATION** to the buyer to cancel the purchase within three days of the sale.
- Make sure that the **DELIVERY DATE** of the hearing instrument is written in the contract.
- If possible, do not pay the full price of the hearing instrument in advance. Make a **DEPOSIT** and pay the balance when the hearing instrument is delivered.
- Ask about the dispenser's **REPAIR POLICY.** Can repairs be done at the office or must hearing instruments be mailed to the manufacturer? How long will these repairs take and are "loaner" instruments available?
- Keep all information received, such as **RECORD OF PURCHASE**, receipts, warranties, etc., for future reference.
- You may want to **BRING A FRIEND** along to assist you when you purchase a hearing instrument.
- A hearing instrument is an important investment. Don't be afraid to **ASK QUESTIONS** or seek a **SECOND OPINION.**
- If the hearing instrument is uncomfortable, causing problems or not working properly, **CONTACT YOUR DISPENSER IMMEDIATELY.**
