TITLE

(X6) DATE

Any deficiency statement ending with an asterisk (\*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

R1's chair alarm needs batteries.</p> <p>R1 on 11/3/11 at 2:30 pm who was able to recall the incident of her falling on 10/9/11. R1 was alert and oriented to time, place and person and able to carry on conversation. R1 stated she has Vertigo. On the night of 10/9/11 R1 indicated she could not wait to go to bath room, she needed to go quickly, other wise bath room accidents happen. R1 indicated she goes to bath room at least two to three times at night. R1 stated on the night of 10/9/11 the accident happened shortly after the midnight. R1 also stated it took a while for the girls to come when she called for help, so she got up herself from her bed, and turned her head quickly after she got up from bed and she felt dizzy from Vertigo and fell. R1 answered there was no bed alarm on the bed and she does not like it any, because it sounds, no one comes, and she looses her sleep.</p> <p>The facility documented six incidents (3/16, 4/14, 4/24, 4/30, 7/26, and 10/9/11). After R1's falling the facility recommendations included: On 3/16/11 and 4/14/11 educate R1 on the call light and asking for assistance. It is unclear as to how the facility will ensure that R1 will follow to call for help. On 4/24/11 it was recommended to place bed alarm as a reminder for resident to ask for assistance during transfer. On 4/30/11 move R1 closer to nurses station; in the details it was there was no alarm. The facility did not evaluate why R1 has no alarm on her bed. On 7/26/11 incident details noted the alarm was</p>	F 323

Again the facility did not evaluate why the alarm was not sounding.</p> <p>On 10/9/11 incident details noted there was no alarm, the recommendations included to ensure chair alarm in place to help remind resident of need for assistance. Once again the facility failed to ensure the staff did not implement the intervention to have alarm on R1's bed.</p> <p>R1's 10/9/11 incident report noted the staff found her on the floor by her bed, alert and verbally responsive. The facility final incident investigation indicated she sustained left hip fracture after her falling on 10/9/11.</p> <p>R1's 7/6/11 Minimum Data Set (MDS) noted she is alert and oriented, needs one staff assistance from sitting to standing, transferring surface to surface, ambulate, turning, moving on off toilet, and ambulation.</p> <p>The facility conducted a fall risk assessment indicating numerical value for each contributing factor. These assessment scores (1/5, 3/16, 4/14, 4/24, 4/30, 6/29, 7/26, 10/9 and 10/16/11) indicated that R1 was at high risk for falling. The facility did not evaluate these risk factors to indicate if the risk factors could be modified.</p> <p>R1's unsteady gait care plan, dated 1/7/11 which was revised on 3/16, 4/5, 4/14 and 7/11/11, interventions added to 'place bed pad alarm.'</p> <p>On 11/3/11 at 12:30 pm Z1 (R1's physician) stated R1 is clumsy, independent (mentally), she wants to do what ever she wants to do, but she is unsteady and needs assistance. If there is any</p>	F 323

F 323	<p>Continued From page 3</p> <p>thing wrong R1 jumps and wants it right away. R1 needs close supervision, that is the only way her falling can be prevented.</p> <p>On 11/3/11 E7, day shift Nurse stated in the presence of E3 (the Clinical Support Nurse) that R1 needed limited assistance of one staff prior to her falling 10/9/11 to take her to bath room, but some times R1 takes herself to bath room without calling for help. E7 indicated the staff has to watch R1, she has to have bed alarm and chair alarm. The staff should hear the alarm and respond immediately.</p> <p>It is clear from the observations on 11/3/11 and the facility incident investigation reports, and staff interview the facility did not follow the recommendations to use bed alarm and have a functional chair alarm. R1's fall on 10/9/11 was preventable.</p>	F 323
