

DEPARTMENT OF PUBLIC HEALTH

NOTICE OF ADOPTED AMENDMENT

- 1) Heading of the Part: Child Health Examination Code
- 2) Code Citation: 77 Ill. Adm. 665
- 3) Section Number: 665.240 Adopted Action: Amended
- 4) Statutory Authority: Section 27-8.1 of the School Code [105 ILCS 5/27-8.1] and Section 6.2 of the Lead Poisoning Prevention Act [410 ILCS 45/6.2]
- 5) Effective Date of Rulemaking: September 27, 2011
- 6) Does this rulemaking contain an automatic repeal date? No
- 7) Does this rulemaking contain incorporations by reference? No
- 8) A copy of the adopted amendment, including any material incorporated by reference, is on file in the agency's principal office and is available for public inspection.
- 9) Notice of Proposed Amendments Published in Illinois Register: 35 Ill. Reg. 8766; June 10, 2011
- 10) Has JCAR issued a Statement of Objection to this rulemaking? No
- 11) Differences between proposal and final version: None
- 12) Have all the changes agreed upon by the agency and JCAR been made as indicated in the agreements issued by JCAR? No agreements were necessary.
- 13) Will this rulemaking replace any emergency rulemaking currently in effect? No
- 14) Are there any amendments pending on this Part? No
- 15) Summary and Purpose of Rulemaking: Existing rules specify required immunizations, physical examinations, and acceptable exemptions for children attending child care facilities, children entering school-operated programs below the kindergarten level and kindergarten through 12th grade. This rulemaking will modify existing requirements to align with current accepted clinical practices as recommended by the Advisory

DEPARTMENT OF PUBLIC HEALTH

NOTICE OF ADOPTED AMENDMENT

Committee on Immunization Practices (ACIP), the American Academy of Pediatrics (AAP) and the Academy of Family Physicians (AFP). At least 35 other states have already instituted requirements for adolescent vaccinations to address waning immunity to pertussis. Illinois reported over 1,000 cases of pertussis in 2010, with 45% of cases occurring in school-age children. In an effort to protect unprotected infants who are at highest risk of complications, it is critical to provide full protection to the rest of the community. The amendment will align the vaccination requirement with existing mandatory physical examination requirements at 6th grade and ensure that older students receive "catch up" vaccinations at the time of the next required physical examination required for school entry at 9th grade.

- 16) Information and questions regarding this adopted amendment shall be directed to:

SUBPART B: HEALTH EXAMINATION

Section 665.240 Basic Immunization

a) Diphtheria, Pertussis, Tetanus

- 1) Any child ~~two~~2 years of age or older entering a school program (defined as nursery schools, pre-school programs, early childhood programs, Head Start, or other pre-kindergarten child care programs offered or operated by a school or school district) ~~shall~~must show proof (see Section 665.250(b)) of having received ~~four~~4 or more doses of Diphtheria, Tetanus, Pertussis (DTP or DTaP) vaccine. The first ~~three~~3 doses in the series ~~shall~~must have been received no less than ~~four~~4 weeks (28 days) apart. The interval between the third and fourth or final dose ~~shall~~must be at least ~~six~~6 months.
- 2) Any child entering ~~school~~, kindergarten or first grade, for the first time ~~shall~~must show proof (see Section 665.250(b)) of having received ~~four~~4 or more doses of Diphtheria, Tetanus, Pertussis (DTP or DTaP) vaccine, with

DEPARTMENT OF PUBLIC HEALTH

NOTICE OF ADOPTED AMENDMENT

the last dose being a booster and having been received on or after the fourth birthday. The first ~~three~~³ doses in the series ~~shall~~^{must} have been received no less than ~~four~~⁴ weeks (28 days) apart. The interval between the third and fourth or final dose ~~shall~~^{must} be at least ~~six~~⁶ months. Children 6 years of age and older may receive Tetanus, Diphtheria (Td) vaccine in lieu of DTP or DTaP vaccine. ~~Pertussis vaccine is not medically recommended for children 7 years of age or older.~~

- 3) Any child entering school at a grade level not included in subsection (a)(1) or (2) of this Section ~~shall~~^{must} show proof (see Section 665.250(b)) of receiving ~~three~~³ or more doses of DTP, DTaP, pediatric DT or adult Tetanus, Diphtheria (Td) with the last dose being a booster and having been received on or after the fourth birthday. The first ~~two~~² doses in the series ~~shall~~^{must} have been received no less than ~~four~~⁴ weeks (28 days) apart. The interval between the second and third or final doses ~~shall~~^{must} be at least ~~six~~⁶ months.
 - 4) Receipt of pediatric Diphtheria Tetanus (DT) vaccine in lieu of DTP or DTaP is acceptable only if the pertussis component of the vaccine is medically contraindicated. Documentation of the medical contraindication ~~shall~~^{must} be verified as specified in Section 665.520.
 - ~~5) If 10 years have elapsed since the last booster, an additional Td booster is required. Receipt of Tetanus Toxoid (T.T.) vaccine is not acceptable in fulfilling this requirement.~~
 - ~~5) Beginning with school year 2011-12, any child entering sixth grade shall show proof (see Section 665.250(b) of receiving one dose of Tdap (defined as tetanus, diphtheria, acellular pertussis) vaccine regardless of the interval since the last DTaP, DT or Td dose.~~
 - ~~6) Students entering grades seven through 12 who have not already received Tdap are required to receive 1 Tdap dose regardless of the interval since the last DTaP, DT or Td dose.~~
- b) Polio
- 1) Any child ~~two~~² years of age or older entering a school program (defined as nursery schools, pre-school programs, early childhood programs, Head

DEPARTMENT OF PUBLIC HEALTH

NOTICE OF ADOPTED AMENDMENT

Start, or other pre-kindergarten child care programs offered or operated by a school or school district) ~~shall~~**must** show proof (see Section 665.250(b)) of having received ~~three~~**3** or more doses of polio vaccine (defined as oral poliovirus vaccine (OPV) or inactivated poliovirus vaccine (IPV)). Doses in the series ~~shall~~**must** have been received no less than ~~four~~**4** weeks (28 days) apart.

- 2) Any child entering school at any grade level, ~~(K-12)~~, ~~shall~~**must** show proof (see Section 665.250(b)) of having received ~~three~~**3** or more doses of polio vaccine (defined as oral poliovirus vaccine (OPV) or inactivated poliovirus vaccine (IPV)). A child who received any combination of IPV and OPV ~~shall~~**must** show proof of having received at least ~~four~~**4** doses, with the last dose having been received on or after the fourth birthday. Doses in the series ~~shall~~**must** have been received no less than ~~four~~**4** weeks (28 days) apart. A child who received IPV exclusively or OPV exclusively ~~shall~~**must** show proof of having received at least ~~three~~**3** doses, with the last dose having been received on or after the fourth birthday. Doses in the series ~~shall~~**must** have been received no less than ~~four~~**4** weeks (28 days) apart.

c) Measles

- 1) Any child ~~two~~**2** years of age or older entering a school program (defined as nursery schools, pre-school programs, early childhood programs, Head Start, or other pre-kindergarten child care programs offered or operated by a school or school district) ~~shall~~**must** show proof (see Section 665.250(b)) of having received one dose of live measles virus vaccine on or after the first birthday, or other proof of immunity described in Section 665.250(c).
- 2) Children entering at any grade level, ~~(K-12)~~, ~~shall~~**must** show evidence of having received ~~two~~**2** doses of live measles virus vaccine, the first dose on or after the first birthday and the second dose no less than ~~four~~**4** weeks (28 days) after the first or other proof of immunity described in Section 665.250(c).
- 3) For students attending school programs where grade levels (K-12) are not assigned, including special education programs, proof of ~~two~~**2** doses of live measles virus vaccine as described in subsection (c)(2) of this Section shall be submitted prior to the school year in which the child reaches the

DEPARTMENT OF PUBLIC HEALTH

NOTICE OF ADOPTED AMENDMENT

ages of ~~five~~⁵, 10, and 15.

- d) Rubella
Any child ~~two~~² years of age or older entering a school program at any grade level, including nursery schools, pre-school programs, early childhood programs, Head Start, or other pre-kindergarten child care programs offered or operated by a school or school district, ~~shall~~^{must} show proof (see Section 665.250(b)) of receiving at least one dose of rubella vaccine on or after the first birthday. Proof of disease is not acceptable unless laboratory evidence of rubella immunity is presented (see Section 665.250(d)).
- e) Mumps
Any child ~~two~~² years of age or older entering a school program at any grade level, including nursery schools, pre-school programs, early childhood programs, Head Start, or other pre-kindergarten child care programs offered or operated by a school or school district, ~~shall~~^{must} show proof (see Section 665.250(b)) of receiving at least one dose of mumps vaccine on or after the first birthday. Proof of disease, if verified by a physician ~~licensed to practice medicine in all of its branches~~, or laboratory evidence of mumps immunity may be substituted for proof of vaccination (see Section 665.250(e)).
- f) Haemophilus influenzae type b (Hib)
- 1) Any child ~~two~~² years of age or older entering a school program (defined as nursery schools, pre-school programs, early childhood programs, Head Start, or other pre-kindergarten child care programs offered or operated by a school or school district) ~~shall~~^{must} show proof of immunization that complies with the Hib vaccination schedule in Appendix B of this Part.
 - 2) Children 24 ~~to~~⁻ 59 months of age who have not received the primary series of Hib vaccine, according to the Hib vaccination schedule, ~~shall~~^{must} show proof of receiving one dose of Hib vaccine at 15 months of age or older.
 - 3) Any child ~~five~~⁵ years of age or older shall not be required to provide proof of immunization with Hib vaccine.
- g) Hepatitis B
- 1) Any child ~~two~~² years of age or older entering a school program (defined

DEPARTMENT OF PUBLIC HEALTH

NOTICE OF ADOPTED AMENDMENT

as nursery schools, pre-school programs, early childhood programs, Head Start, or other pre-kindergarten child care programs offered or operated by a school or school district) ~~shall~~must show proof (see Section 665.250(b)) of having received ~~three~~3 doses of hepatitis B vaccine. The first ~~two~~2 doses ~~shall~~must have been received no less than ~~four~~4 weeks (28 days) apart. The interval between the second and third dose ~~shall~~must be at least ~~two~~2 months. For children entering a school program for the first time on or after July 1, 2002, the interval between the first dose and the third dose must be at least 4 months. The third dose must have been administered on or after 6 months of age. Proof of prior or current infection, if verified by laboratory evidence, may be substituted for proof of vaccination (see Section 665.250(f)).

- 2) Children entering the fifth grade for the first time between July 1997 and June 30, 2002 must show evidence of having received ~~three~~3 doses of hepatitis B vaccine. The first 2 doses must have been received no less than 4 weeks (28 days) apart. The interval between the second and third dose must be at least 2 months. Proof of prior or current infection, if verified by laboratory evidence, may be submitted for proof of vaccination (see Section 665.250(f)).
- 3) Children entering the fifth grade for the first time on or after July 1, 2002 must show evidence of having received ~~three~~3 doses of hepatitis B vaccine, or other proof of immunity described in Section 665.250(f). The first ~~two~~2 doses ~~shall~~must have been received no less than ~~four~~4 weeks (28 days) apart. The interval between the second and third dose ~~shall~~must be at least ~~two~~2 months. The interval between the first and third dose ~~shall~~must be at least ~~four~~4 months. Proof of prior or current infection, if verified by laboratory evidence, may be submitted for proof of vaccination (see Section 665.250(f)).
- 4) The third dose of hepatitis B vaccine is not required if it can be documented that the child received ~~two~~2 doses of adult formulation Recombivax-HB vaccine (10 mcg) and was 11 ~~to~~- 15 years of age at the time of vaccine administration, and ~~that~~ the interval between receipt of the ~~two~~2 doses was at least ~~four~~4 months.

h) Varicella

DEPARTMENT OF PUBLIC HEALTH

NOTICE OF ADOPTED AMENDMENT

- 1) Any child ~~two~~ years of age or older entering a school program ~~below~~~~under~~ the kindergarten level (defined as nursery schools, pre-school programs, early childhood programs, Head Start, or other pre-kindergarten child care programs offered or operated by a school or school district) for the first time on or after July 1, 2002, ~~shall~~~~must~~ show proof (see Section 665.250(b)) of having received one dose of varicella vaccine on or after the first birthday, proof of prior varicella disease as described in Section 665.250(g), or laboratory evidence of varicella immunity.
- 2) Children entering kindergarten for the first time on or after July 1, 2002, ~~shall~~~~must~~ show proof of having received at least one dose of varicella vaccine on or after the first birthday, proof of prior varicella disease as described in Section 665.250(g), or laboratory evidence of varicella immunity.
- 3) For students attending school programs where grade levels are not assigned, proof of having received at least one dose of varicella vaccine on or after the first birthday or other proof of immunity as described in subsection (h)(2) of this Section shall be submitted prior to the school year in which the child reaches the age of ~~five~~~~5~~.

(Source: Amended at 35 Ill. Reg. 16723, effective September 27, 2011)
