- e) The facility shall provide for the evacuation of physically handicapped persons, including those who are hearing or sight impaired.
- f) If the welfare of the residents precludes an actual evacuation of an entire building, the facility shall conduct drills involving the evacuation of successive portions of the building under conditions that assure the capability of evacuating the entire building with the personnel usually available, should the need arise.
- g) A written evaluation of each drill shall be submitted to the facility administrator and shall be maintained for one year.

Additionally, the facility shall submit a full written account to the Department within seven days after the occurrence, which includes the information specified in subsection (i)(1) of this Section and a statement of action taken by the facility after the preliminary report.
- j) Each facility shall establish and implement policies and procedures in a written plan to provide for the health, safety, welfare and comfort of all residents when the heat index/apparent temperature (see Section 330.Table A), as established by the National Oceanic and Atmospheric Administration, inside the facility exceeds 80°F.
