DEPARTMENT OF PUBLIC HEALTH

NOTICE OF ADOPTED AMENDMENTS

- 1) <u>Heading of the Part:</u> Control of Communicable Diseases Code
- 2) <u>Code Citation:</u> 77 Ill. Adm. Code 690
- 3)
 Section Numbers: 690.900
 Adopted Action: Amended

 690.1500
 New

 690.1510
 New

 690.1520
 New

 690.1530
 New

 690.1540
 New
- 4) <u>Statutory Authority:</u> Communicable Disease Report Act [745 ILCS 45] and the Department of Public Health Act [20 ILCS 2305]
- 5) <u>Effective Date of Amendments:</u>
- 6) <u>Does this rulemaking contain an automatic repeal date?</u> No
- 7) <u>Does this rulemaking contain incorporations by reference?</u> No
- 8) <u>A copy of the adopted amendments, including any material incorporated by reference, is</u> on file in the agency's principal office and is available for public inspection.
- 9) <u>Notice of Proposed Amendments Published in Illinois Register:</u> 36 Ill. Reg. 15918 November 9, 2012
- 10) Has JCAR issued a Statement of Objection to these amendments? No
- 11) <u>Difference(s) between proposal and final version:</u>

The following changes were made in response to comments received during the first notice or public comment period:

1. In the Table of Contents, in the heading for Section 690.1500, "<u>Multi-</u>" was changed to "<u>Extensively</u>"; in the heading for Section 690.1530, "<u>MDRO</u>" was changed to "<u>XDRO</u>"; in the heading for Section 690.1540, "<u>Registry</u>" was deleted.

2. "<u>MDRO</u>" and "<u>MDROs</u>" were changed to "<u>XDRO</u>" and "<u>XDROs</u>" throughout the rules. "<u>Multi-Drug</u>" was changed to "<u>Extensively Drug-</u>".

DEPARTMENT OF PUBLIC HEALTH

NOTICE OF ADOPTED AMENDMENTS

3. In the Definitions (Section 690.900), "Carbapenam" was changed to "Carbapenem".

4. The definition of "Extensively Drug Resistant Organisms" in Section 690.900 was revised to read: "A micro-organism that is non-susceptible to at least one agent in all but two or fewer antimicrobial categories."

5. The definitions of "<u>Multi-Drug Resistant Organism</u>", "<u>Multi-Drug Resistant Organism</u> <u>Isolate</u>" and "<u>Non-Susceptible to Any Carbapenem Antibiotic</u>" in Section 690.900 were deleted.

6. In Section 690.900, the definition of "<u>Non-Duplicative MDRO Isolate</u>" was amended to read: "<u>Non-Duplicative Isolate</u>" – The first isolate obtained from any source during each unique patient/resident encounter, including those obtained for active surveillance or clinical decision making."

7. In Section 690.900, the definition of "<u>Registry</u>" was changed to: "<u>A data collection</u> and information system that is designed to support organized care management."

8. In Section 690.1520(a), the text was deleted and replaced with: "<u>A facility required to</u> submit XDRO information shall report each Non-Duplicative XDRO Isolate, as specified in this Section, to the Department."

9. In Section 690.1520(a)(1), "<u>(if available)</u>" was added after "<u>Social Security Number</u>" and was also added in subsection (a)(2) after "<u>ethnicity</u>".

10. In Section 690.1520(a)(3), the text was deleted and replaced with: "<u>specimen</u> <u>collection date, specimen source, isolate genus, isolate species, specific carbapenemase</u> <u>name (if known), antibiotic resistance criteria for entry into the Registry</u>".

11. In Section 690.1520(c), "<u>one month after the culture acquisition date</u>" was deleted and "<u>seven calendar days after the test result is finalized</u>" was added.

12. In Section 690.1520(d), text was deleted and new text added.

13. Section 690.1520(e) was deleted.

14. In Section 690.1520(f) (new (e)), text beginning with "<u>all MDROs related</u>..." was deleted and replaced with new text.

DEPARTMENT OF PUBLIC HEALTH

NOTICE OF ADOPTED AMENDMENTS

15. In Section 690.1530(a) "<u>recovered from any specimen source</u>" was deleted; "<u>one</u> <u>month after the culture acquisition date</u>" was deleted and "<u>seven calendar days after the test result is finalized</u>" was added.

16. In Section 690.1530(b)(1), "shall" was changed to "may".

17. In the heading of Section 690.1540, "<u>Registry</u>" was deleted.

The following changes were made in response to comments and suggestions of JCAR:

In Section 690.1500(a), "(XDRO)" was added after "Organism".

In addition, various typographical, grammatical, and form changes were made in response to the comments from JCAR.

- 12) <u>Have all the changes agreed upon by the agency and JCAR been made as indicated in the agreements issued by JCAR?</u> Yes
- 13) <u>Will this rulemaking replace an emergency rule currently in effect?</u> No
- 14) <u>Are there any amendments pending on this Part?</u> No
- 15) <u>Summary and Purpose of Rulemaking:</u> The amendments establish new provisions for the Department's Extensively Drug- Resistant Organism (XDRO) Registry. The Registry allows the Department to collect data on persons entering health care facilities who have been diagnosed with an XDRO infection. The amendments include definitions; the entities that are required to submit information; the information required to be reported; reporting methods; and availability of information.
- 16) Information and questions regarding these adopted amendments shall be directed to:

Susan Meister Division of Legal Services Department of Public Health 535 West Jefferson, 5th Floor Springfield, Illinois 62761

TITLE 77: PUBLIC HEALTH CHAPTER I: DEPARTMENT OF PUBLIC HEALTH SUBCHAPTER k: COMMUNICABLE DISEASE CONTROL AND IMMUNIZATIONS

PART 690 CONTROL OF COMMUNICABLE DISEASES CODE

SUBPART A: REPORTABLE DISEASES AND CONDITIONS

Section

690.100 Diseases and Conditions

690.110 Diseases Repealed from This Part

SUBPART B: REPORTING

Section

690.200 Reporting

SUBPART C: DETAILED PROCEDURES FOR THE CONTROL OF COMMUNICABLE DISEASES

Section

690.290	Acquired Immunodeficiency Syndrome (AIDS) (Repealed)
690.295	Any Unusual Case or Cluster of Cases That May Indicate a Public Health Hazard,
	Including, But Not Limited to, Glanders, Orf, Monkeypox, Viral Hemorrhagic
	Fever (Reportable by telephone immediately (within 3 hours))
690.300	Amebiasis (Reportable by mail, telephone, facsimile or electronically as soon as
	possible, within 7 days) (Repealed)
690.310	Animal Bites (Reportable by mail or telephone as soon as possible, within 7 days)
	(Repealed)
690.320	Anthrax (Reportable by telephone immediately, within 3 hours, upon initial
	clinical suspicion of the disease)
690.322	Arboviral Infections (including, but not limited to, California encephalitis, St.
	Louis encephalitis and West Nile virus) (Reportable by mail, telephone, facsimile
	or electronically as soon as possible, within 7 days)
690.325	Blastomycosis (Reportable by mail, telephone, facsimile or electronically as soon
	as possible, within 7 days) (Repealed)
690.327	Botulism, Foodborne, Intestinal Botulism (Formerly Infant), Wound, or Other
	(Reportable by telephone immediately, within 3 hours upon initial clinical
	suspicion of the disease for foodborne botulism or within 24 hours by telephone

DEPARTMENT OF PUBLIC HEALTH

NOTICE OF ADOPTED AMENDMENTS

	or facsimile for other types)
690.330	Brucellosis (Reportable by mail, telephone, facsimile or electronically as soon as
	possible (within 7 days), unless suspected bioterrorist event or part of an outbreak,
<00 00 5	then reportable immediately (within 3 hours) by telephone)
690.335	Campylobacteriosis (Reportable by mail, telephone, facsimile or electronically,
COO 240	within 7 days) (Repealed)
690.340	Chancroid (Repealed)
690.350	Chickenpox (Varicella) (Reportable by telephone, facsimile or electronically,
(00.200	within 24 hours)
690.360	Cholera (Vibrio cholerae O1 or O139) (Reportable by telephone or facsimile as
(00.262	soon as possible, within 24 hours)
690.362	Creutzfeldt-Jakob Disease (CJD) (all laboratory confirmed and probable cases)
	(Reportable by mail, telephone, facsimile or electronically within 7 days after
(00.265	confirmation of the disease)
690.365	Cryptosporidiosis (Reportable by mail, telephone, facsimile or electronically as
690.368	soon as possible, within 7 days) Cyclosporiasis (Reportable by mail, telephone, facsimile or electronically, within
090.308	7 days)
690.370	Diarrhea of the Newborn (Reportable by telephone as soon as possible, within 24
070.370	hours) (Repealed)
690.380	Diphtheria (Reportable by telephone as soon as possible, within 24 hours)
690.385	Ehrlichiosis, Human Granulocytotropic anaplasmosis (HGA) (See Tickborne
070.505	Disease)
690.386	Ehrlichiosis, Human Monocytotropic (HME) (See Tickborne Disease)
690.390	Encephalitis (Reportable by mail, telephone, facsimile or electronically as soon as
	possible, within 7 days) (Repealed)
690.400	Escherichia coli Infections (E. coli O157:H7 and Other Shiga toxin-producing E.
	coli, Enterotoxigenic E. coli, Enteropathogenic E. coli and Enteroinvasive E. coli)
	(Reportable by telephone or facsimile as soon as possible, within 24 hours)
690.410	Foodborne or Waterborne Illness (Reportable by telephone or facsimile as soon as
	possible, within 24 hours)
690.420	Giardiasis (Reportable by mail, telephone, facsimile or electronically as soon as
	possible, within 7 days)
690.430	Gonorrhea (Repealed)
690.440	Granuloma Inguinale (Repealed)
690.441	Haemophilus influenzae, Meningitis and Other Invasive Disease (Reportable by
	telephone or facsimile, within 24 hours)
690.442	Hantavirus Pulmonary Syndrome (Reportable by telephone or facsimile, within
	24 hours)
690.444	Hemolytic Uremic Syndrome, Post-diarrheal (Reportable by telephone or

NOTICE OF ADOPTED AMENDMENTS

	facsimile, within 24 hours)
690.450	Hepatitis A (Reportable by telephone or facsimile as soon as possible, within 24
	hours)
690.451	Hepatitis B and Hepatitis D (Reportable by mail, telephone, facsimile or
	electronically, within 7 days)
690.452	Hepatitis C, Acute Infection and Non-Acute Confirmed Infection (Reportable by
	mail, telephone, facsimile or electronically, within 7 days)
690.453	Hepatitis, Viral, Other (Reportable by mail, telephone, facsimile or electronically,
	within 7 days) (Repealed)
690.460	Histoplasmosis (Reportable by mail, telephone, facsimile or electronically as soon
	as possible, within 7 days)
690.465	Influenza, Death (in persons less than 18 years of age) (Reportable by mail,
	telephone, facsimile or electronically as soon as possible, within 7 days)
690.469	Influenza A, Novel Virus (Reportable by telephone immediately, within 3 hours
	upon initial clinical suspicion or laboratory test order)
690.470	Intestinal Worms (Reportable by mail or telephone as soon as possible, within 7
	days) (Repealed)
690.475	Legionellosis (Reportable by mail, telephone, facsimile or electronically as soon
	as possible, within 7 days)
690.480	Leprosy (Hansen's Disease) (infectious and non-infectious cases are reportable)
	(Reportable by mail, telephone, facsimile or electronically as soon as possible,
	within 7 days)
690.490	Leptospirosis (Reportable by mail, telephone, facsimile or electronically as soon
	as possible, within 7 days)
690.495	Listeriosis (when both mother and newborn are positive, report mother only)
	(Reportable by mail, telephone, facsimile or electronically as soon as possible,
	within 7 days)
690.500	Lymphogranuloma Venereum (Lymphogranuloma Inguinale Lymphopathia
	Venereum) (Repealed)
690.505	Lyme Disease (See Tickborne Disease)
690.510	Malaria (Reportable by mail, telephone, facsimile or electronically as soon as
	possible, within 7 days)
690.520	Measles (Reportable by telephone as soon as possible, within 24 hours)
690.530	Meningitis, Aseptic (Including Arboviral Infections) (Reportable by mail,
	telephone, facsimile or electronically as soon as possible, within 7 days)
	(Repealed)
690.540	Meningococcemia (Reportable by telephone as soon as possible) (Repealed)
690.550	Mumps (Reportable by telephone, facsimile or electronically as soon as possible,
	within 24 hours)
690.555	Neisseria meningitidis, Meningitis and Invasive Disease (Reportable by telephone

SUBPART D: DEFINITIONS

DEPARTMENT OF PUBLIC HEALTH

NOTICE OF ADOPTED AMENDMENTS

Section 690.900 Definition of Terms

For the purpose of this Part, the following shall be the accepted definitions of terms.

"Acceptable Laboratory" – A laboratory that is certified under the Centers for Medicare and Medicaid Services, Department of Health and Human Services, Laboratory Requirements (42 CFR 493), which implements the Clinical Laboratory Improvement Amendments of 1988 (42 USC 263).

"Act" – The Department of Public Health Act of the Civil Administrative Code of Illinois [20 ILCS 2305].

"Airborne Precautions" or "Airborne Infection Isolation Precautions" – Infection control measures designed to reduce the risk of transmission of infectious agents that may be suspended in the air in either dust particles or small particle aerosols (airborne droplet nuclei (5 μ m or smaller in size)) (see Section 690.1010(a)(7)).

"Authenticated Fecal Specimen" – A specimen is considered to be authenticated when a public health authority or a person authorized by a public health authority has observed one or more of the following:

The patient produce the specimen.

Conditions such that no one other than the case, carrier or contact could be the source of the specimen.

"Bioterrorist Threat or Event" – The intentional use of any microorganism, virus, infectious substance or biological product that may be engineered as a result of biotechnology, or any naturally occurring or bioengineered component of any such microorganism, virus, infectious substance, or biological product, to cause death, disease, or other biological malfunction in a human, an animal, a plant or another living organism.

"Carbapenem Antibiotics" - A class of broad-spectrum Beta-lactam antibiotics.

"Carrier" - A person or deceased person who harbors a specific infectious agent in the absence of discernible clinical disease and serves as a potential source of infection for others.

"Case" - Any person or deceased person having a recent illness due to a

NOTICE OF ADOPTED AMENDMENTS

communicable disease.

"Confirmed Case" – A case that is classified as confirmed per federal or State case definitions.

"Probable Case" – A case that is classified as probable per federal or State case definitions.

"Suspect Case" – A person whose medical history or symptoms suggest that he or she may have or may be developing a communicable disease and does not yet meet the case definition of a probable or confirmed case.

"Certified Local Health Department" – A local health authority that is certified pursuant to Section 600.210 of the Certified Local Health Department Code (77 Ill. Adm. Code 600).

"Chain of Custody" – The methodology of tracking specimens for the purpose of maintaining control and accountability from initial collection to final disposition of the specimens and providing for accountability at each stage of collecting, handling, testing, storing, and transporting the specimens and reporting test results.

"Child Care Facility" – A center, private home, or drop-in facility open on a regular basis where children are enrolled for care or education.

"Cleaning" – The removal of visible soil (organic and inorganic material) from objects and surfaces; it normally is accomplished by manual or mechanical means using water with detergents or enzymatic products.

"Clinical Materials" – A clinical isolate containing the infectious agent or other material containing the infectious agent or evidence of the infectious agent.

"Cluster" – Two or more persons with a similar illness, usually associated by place or time, unless defined otherwise in Subpart C of this Part.

"Communicable Disease" – An illness due to a specific infectious agent or its toxic products that arises through transmission of that agent or its products from an infected person, animal or inanimate source to a susceptible host, either directly or indirectly through an intermediate plant or animal host, vector or the inanimate environment.

NOTICE OF ADOPTED AMENDMENTS

"Contact" – Any person known to have been associated sufficiently with a case or carrier of a communicable disease to have been the source of infection for that person or to have been associated sufficiently with the case or carrier of a communicable disease to have become infected by the case or carrier.

"Contact Precautions" – Infection control measures designed to reduce the risk of transmission of infectious agents that can be spread through direct contact with the patient or indirect contact with potentially infectious items or surfaces (see Section 690.1010(a)(7)).

"Contagious Disease" – An infectious disease that can be transmitted from person to person.

"Dangerously Contagious or Infectious Disease" – An illness due to a specific infectious agent or its toxic products that arises through transmission of that agent or its products from an infected person, animal or inanimate reservoir to a susceptible host, either directly or indirectly through an intermediate plant or animal host, vector or the inanimate environment, and may pose an imminent and significant threat to the public health, resulting in severe morbidity or high mortality.

"Decontamination" – A procedure that removes pathogenic microorganisms from objects so they are safe to handle, use or discard.

"Department" – Illinois Department of Public Health.

"Director" – The Director of the Department, or his or her duly designated officer or agent.

"Diarrhea" – The presence of 3 or more loose stools within a 24-hour period.

"Disinfection" – A process, generally less lethal than sterilization, that eliminates virtually all recognized pathogenic microorganisms, but not necessarily all microbial forms (e.g., bacterial spores).

"Droplet Precautions" – Infection control measures designed to reduce the risk of transmission of infectious agents via large particle droplets that do not remain suspended in the air and are usually generated by coughing, sneezing, or talking (see Section 690.1010(a)(7)).

DEPARTMENT OF PUBLIC HEALTH

NOTICE OF ADOPTED AMENDMENTS

"Emergency" – An occurrence or imminent threat of an illness or health condition that:

is believed to be caused by any of the following:

bioterrorism;

the appearance of a novel or previously controlled or eradicated infectious agent or biological toxin;

a natural disaster;

a chemical attack or accidental release; or

a nuclear attack or incident; and

poses a high probability of any of the following harms:

a large number of deaths in the affected population;

a large number of serious or long-term disabilities in the affected population; or

widespread exposure to an infectious or toxic agent that poses a significant risk of substantial future harm to a large number of people in the affected population.

"Epidemic" – The occurrence in a community or region of cases of a communicable disease (or an outbreak) clearly in excess of expectancy.

<u>"Extensively Drug-Resistant Organisms" – A micro-organism that is non-</u> susceptible to at least one agent in all but two or fewer antimicrobial categories.

"Fever" – The elevation of body temperature above the normal (typically considered greater than or equal to 100.4 degrees Fahrenheit).

"First Responder" – Those individuals who in the early stages of an incident are responsible for the protection and preservation of life, property, evidence, and the environment, including emergency response providers as defined in section 2 of

NOTICE OF ADOPTED AMENDMENTS

the Homeland Security Act of 2002 (6 USC 101), as well as emergency management, public health, clinical care, public works, and other skilled support personnel (such as equipment operators) that provide immediate support services during prevention, response, and recovery operations.

"Food Handler" – A person who produces, prepares, packages or dispenses food or drink.

"Health Care Facility" – Any institution, building, or agency or portion thereof, whether public or private (for-profit or nonprofit) that is used, operated, or designed to provide health services, medical treatment, or nursing, rehabilitative, or preventive care to any person or persons. This includes, but is not limited to: ambulatory surgical treatment centers, home health agencies, hospices, hospitals, end-stage renal disease facilities, long-term care facilities, medical assistance facilities, mental health centers, outpatient facilities, public health centers, rehabilitation facilities, residential treatment facilities, and adult day care centers.

"Health Care Provider" – Any person or entity who provides health care services, including, but not limited to, hospitals, medical clinics and offices, long-term care facilities, medical laboratories, physicians, pharmacists, dentists, physician assistants, nurse practitioners, registered and other nurses, paramedics, emergency medical or laboratory technicians, and ambulance and emergency workers.

"Health Care Worker" – Any person who is employed by (or volunteers his or her services to) a health care facility to provide direct personal services to others. This definition includes, but is not limited to, physicians, dentists, nurses and nursing assistants.

"Incubation Period" – The time interval between initial contact with an infectious agent and the first appearance of symptoms associated with the infection.

"Infectious Disease" – A disease caused by a living organism or other pathogen, including a fungus, bacteria, parasite, protozoan, prion, or virus. An infectious disease may, or may not, be transmissible from person to person, animal to person, or insect to person.

"Institution" – An established organization or foundation, especially one dedicated to education, public service, or culture, or a place for the care of persons who are destitute, disabled, or mentally ill.

NOTICE OF ADOPTED AMENDMENTS

"Isolation" – The physical separation and confinement of an individual or groups of individuals who are infected or reasonably believed to be infected with a contagious or possibly contagious disease from non-isolated individuals, to prevent or limit the transmission of the disease to non-isolated individuals.

"Isolation, Modified" – A selective, partial limitation of freedom of movement or actions of a person or group of persons infected with, or reasonably suspected to be infected with, a contagious or infectious disease. Modified isolation is designed to meet particular situations and includes, but is not limited to, the exclusion of children from school, the prohibition or restriction from engaging in a particular occupation or using public or mass transportation, or requirements for the use of devices or procedures intended to limit disease transmission.

"Isolation Precautions" – Infection control measures for preventing the transmission of infectious agents, i.e., Standard Precautions, Airborne Precautions (also known as Airborne Infection Isolation Precautions), Contact Precautions, and Droplet Precautions (see Section 690.1010(a)(7)).

"Least Restrictive" – The minimal limitation of the freedom of movement and communication of a person or group of persons while under an order of isolation or an order of quarantine, which also effectively protects unexposed and susceptible persons from disease transmission.

"Local Health Authority" – The health authority (i.e., full-time official health department, as recognized by the Department) having jurisdiction over a particular area, including city, village, township and county boards of health and health departments and the responsible executive officers of such boards, or any person legally authorized to act for such health authority. In areas without a health department recognized by the Department, the local health authority shall be the Department.

"Medical Record" – A written or electronic account of a patient's medical history, current illness, diagnosis, details of treatments, chronological progress notes, and discharge recommendations.

"Non-Duplicative Isolate" – The first isolate obtained from any source during each unique patient/resident encounter, including those obtained for active surveillance or clinical decision making.

"Observation" - The practice of close medical or other supervision of contacts in

NOTICE OF ADOPTED AMENDMENTS

order to promote prompt recognition of infection or illness, but without restricting their movements.

"Observation and Monitoring" – Close medical or other supervision, including, but not limited to, review of current health status, by health care personnel, of a person or group of persons on a voluntary or involuntary basis to permit prompt recognition of infection or illness.

"Outbreak" – The occurrence of illness in a person or a group of epidemiologically associated persons, with the rate of frequency clearly in excess of normal expectations. The number of cases indicating presence of an outbreak is disease-specific.

"Premises" – The physical portion of a building or other structure and its surrounding area so designated by the Director of the Department, his authorized representative, or the local health authority.

"Public Health Order" – A written or verbal command, directive, instruction or proclamation issued or delivered by the Department or certified local health department.

"Quarantine" – The physical separation and confinement of an individual or groups of individuals who are or may have been exposed to a contagious disease or possibly contagious disease and who do not show signs or symptoms.

<u>"Registry" – A data collection and information system that is designed to support</u> orgainzed care management.

"Sensitive Occupation" – An occupation involving the direct care of others, especially young children and the elderly, or any other occupation so designated by the Department or the local health authority, including, but not limited to, health care workers and child care facility personnel.

"Sentinel Surveillance" – A means of monitoring the prevalence and/or incidence of infectious disease or syndromes through reporting of cases, suspected cases, or carriers or submission of clinical materials by selected sites.

"Specimens" – Include, but are not limited to, blood, sputum, urine, stool, other bodily fluids, wastes, tissues, and cultures necessary to perform required tests.

NOTICE OF ADOPTED AMENDMENTS

"Standard Precautions" – Infection prevention and control measures that apply to all patients regardless of diagnosis or presumed infection status (see Section 690.1010(a)(7)).

"Sterilization" – The use of a physical or chemical process to destroy all microbial life, including large numbers of highly resistant bacterial endospores.

"Susceptible (non-immune)" - A person who is not known to possess sufficient resistance against a particular pathogenic agent to prevent developing infection or disease if or when exposed to the agent.

"Syndromic Surveillance" – Surveillance using health-related data that precede diagnosis and signal a sufficient probability of a case or an outbreak to warrant further public health response.

"Tests" – Include, but are not limited to, any diagnostic or investigative analyses necessary to prevent the spread of disease or protect the public's health, safety, and welfare.

"Transmission" – Any mechanism by which an infectious agent is spread from a source or reservoir to a person, including direct, indirect, and airborne transmission.

"Voluntary Compliance" – Deliberate consented compliance of a person or group of persons that occurs at the request of the Department or local health authority prior to instituting a mandatory order for isolation, quarantine, closure, physical examination, testing, collection of laboratory specimens, observation, monitoring, or medical treatment pursuant to this Subpart.

SUBPART I: REGISTRIES

Section 690.1500 Extensively Drug-Resistant Organism Registry

a) This Section establishes an Extensively Drug-Resistant Organism (XDRO) Registry to collect data on persons entering health care facilities who have been diagnosed with an XDRO infection. Options for treating patients with XDRO infections are often limited, and XDRO infections are associated with increased

DEPARTMENT OF PUBLIC HEALTH

NOTICE OF ADOPTED AMENDMENTS

lengths of stay, costs and mortality. The Registry is established to protect patients and to stop the spread of communicable disease in health care facilities.

b) XDROs to be included in the registry include non-duplicative XDROs considered to be of epidemiologic importance due to either severity of clinical disease, potential for transmission of genetic elements, or opportunities for effective control efforts.

(Source: Added at 37 Ill. Reg. _____, effective _____)

Section 690.1510 Entities Required to Submit Information

The Department requires the following health care facilities to report patient XDRO incident information:

- <u>a)</u> <u>Hospitals;</u>
- b) Hospital-affiliated clinical laboratories;
- <u>c)</u> <u>Independent or free-standing laboratories;</u>
- <u>d)</u> <u>Long-term care facilities; and</u>
- <u>e)</u> <u>Long-term acute care hospitals (LTACHs)</u>

(Source: Added at 37 Ill. Reg. _____, effective _____)

Section 690.1520 Information Required to be Reported

- a) <u>A facility required to submit XDRO information shall report each Non-</u> <u>Duplicative XDRO Isolate, as specified in this Section, to the Department.</u>
- b) The information to be reported shall be provided in a format designated by the Department and may be submitted either by direct electronic transmission or entry into a website. The information to be reported is divided into four subject areas, each containing a particular set of information. The four subject areas of the incidence report shall include the following:
 - 1) Patient Data and Address patient's full name (including maiden name, when applicable and available), last four digits of the Social Security

NOTICE OF ADOPTED AMENDMENTS

number (if available), telephone number and residential address, including street address, city, county, state and postal code;

- 2) <u>Personal Data patient's birth date, sex, race and ethnicity (if available);</u>
- 3) Culture Data specimen collection date, specimen source, isolate genus, isolate species, specific carbapenemase name (if known), antibotic resistance criteria for entry into the Registry; and
- 4) Facility Data facility identification number provided by the Department, the medical record number, and the date of admission.
- c) Each XDRO report shall be submitted within seven calendar days after the test result is finalized.
- d) Upon request from the Department or the Department's designee, each reporting facility shall provide access to additional information from all medical, pathological and other pertinent records related to the XDRO diagnosis, treatment, and follow-up for the purposes of infection control and quality improvement.
- e) <u>Beginning September 1, 2013, reporting facilities shall report carbapenem-</u> resistant enterobacteriaceae (e.g., E. coli, Klebsiella species, Enterobacter species, Proteus species, Citrobacter species, Serratia species, Morganella species, or Providentia species) based on laboratory test results:
 - 1) Molecular test (e.g., polymerase chain reaction (PCR)) specific for carbapenemase;
 - 2) Phenotypic test (e.g., Modified Hodge) specific for carbapenemase production; or
 - 3) For E. coli and Klebsiella species only: nonsusceptible to one of the following carbapenems: doripenem, meropenem, or imipenem and resistant to all of the following third generation cephalosporin that were tested: ceftriaxone, cefotaxime, and ceftazidime.

--------------------------------	--------------

Section 690.1530 Methods of Reporting XDRO Registry Information

DEPARTMENT OF PUBLIC HEALTH

NOTICE OF ADOPTED AMENDMENTS

- a) All patients identified at a reporting facility with a non-duplicative XDRO are reportable to the Registry within seven calendar days after the test result is finalized.
- b) <u>A reporting facility may report XDRO infections by one of the following methods:</u>
 - 1) Option #1. Electronic Reporting: Health care facilities that have the capacity to submit laboratory data electronically may use this option.
 - 2) Option #2. Manual Entry into a Website: Facilities that do not have the capacity to submit laboratory data electronically shall submit the data through a Department-approved website.
- c) <u>All reporting facilities are responsible for complete case finding, which means</u> identifying all non-duplicative <u>XDRO</u> isolates.

(Source: Added at 37 Ill. Reg. _____, effective _____)

Section 690.1540 Availability of Information

- a) The Department will use information in the XDRO Registry for the following purposes:
 - 1) To provide appropriate information to a physician or institution providing care or treatment to a person;
 - 2) To alert health care facilities of the admission of a patient with an XDRO infection; and
 - 3) To assess the burden of XDROs in health care facilities located in Illinois.
- b) The Department will maintain the confidentiality of information in the XDRO Registry that would identify individual patients. The Department will handle confidentiality of XDRO Registry information as set forth in Section 690.200(d).
- c) The Department may release summary statistics from the XDRO Registry to highlight or prevent a population based public health problem or to highlight the State or regional burden of XDROs. Any summary statistics released by the

DEPARTMENT OF PUBLIC HEALTH

NOTICE OF ADOPTED AMENDMENTS

Department will not reveal the identity of the reporting health care facility or a patient.

<u>d)</u> The availability of XDRO Registry information will be in accordance with the Health and Hazardous Substances Registry Code (77 Ill. Adm. Code 840.30(a), (b), (c), (d), (e), (f), (g), (j) and (k)).
