- 4) Statutory Authority: Structural Pest Control Act [225 ILCS 235]
- 5) A Complete Description of the Subjects and Issues Involved: This rulemaking clarifies language pertinent to violations being calculated on a per-day basis; transfers the violation of operating without a license from a Type A to Type B fine schedule, and transfers failure to provide information upon request from a Type C to Type B fine. The rulemaking also requires pest control companies to retain employee training records until the employee is no longer employed, or becomes certified. The service records of certified technicians will no longer require the review of another certified technician, and the rule provides means by which certified technicians review electronic (non-paper) records of uncertified technicians. The rule requires the estimated amount of pesticide recorded on service records to be accurate to within 10 percent of the actual amount of pesticide applied. Pest control companies will be required to provide a copy of the service record (required by the statute) upon request of the owner, manager or tenant of the property serviced. Accurate diagrams will be required to be a part of service records for services in which termiticide is applied.

The economic effect on this proposed rulemaking is unknown. Therefore, the Department requests any information that would assist in calculating this effect.

The Department anticipates adoption of this rulemaking approximately six to nine months after publication of the Notice in the *Illinois Register*.
- 6) Published studies or reports, and sources of underlying data used to compose this rulemaking: None
